Re: Electronic Voting Machine
Date: March 18, 2008

Julie Flynn, Director of Elections for the State of Maine, has offered to provide the Town of Clinton with a voting machine for the June Primary and the November Presidential elections. The State will provide the machine, delivery, and training (an estimated cost of \$2,800) for no fee to the Town of Clinton.

The Town of Clinton will be responsible for the memory card for both elections and ballot printing costs for the municipal election. I contacted LHS, the vendor approved by the State, for an estimated cost of the memory card. LHS provided an estimate of \$1,550 for the programming of the memory card and the November memory card will be much less (around \$450). Printing of the June municipal warrant ballot for the voting machine is estimated at \$521.99. Municipal officials ballots will be printed in-house and S.A.D. #49 provides their own ballots. I estimate \$100.00 for the municipal officials ballots. These two ballots will be counted by hand.

Shirley and I have tried to estimate what the election will cost and have arrived at the following:

1. Because June 10 is a primary and a State referendum election, as well as the Municipal and SAD meeting, there will be several ballots. Ballot distribution will be a little more detailed as the ballot clerks will need to watch who receives what ballot. Example: if an unenrolled voter does not enroll in one of the qualified parties, that voter is eligible to vote only the referendum ballot. If the voter is enrolled in one of the qualified parties, that voter will receive the ballot of their party – one of three. In reviewing the above, Shirley and I feel we will need to have 3 sets of workers (6 ballot clerks, 3 from each party) for each four-hour shift. We plan to divide the voting list into two sections of the alphabet and have two tables for check in. Then we will need two people (to keep the parties equal) handing out the appropriate ballots and two ballot clerks at the ballot boxes.
2. We are estimating payroll of \$2,241 for ballot clerks with a machine for June.
3. An estimated payroll of \$3,820.50 for ballot clerks without a machine for June.

I am seeking your approval to accept the offer of an electronic voting machine for the June and November elections. This will provide an excellent opportunity for the Town of Clinton and its residents; it will reduce the cost of the ballot clerk's payroll and will certainly reduce the long hours of counting and help reduce errors.

June 10, 2008 Election

PROPOSED WARRANT ARTICLE

Shall Section 9 Enforcement of the Enhanced 911 Ordinance, Town of Clinton, enacted March 27, 1997, be amended to add the Clinton Police Department for enforcement and a civil fine of \$50.00 for non-compliance of the Ordinance.

To: Board of Selectman
Town of Clinton

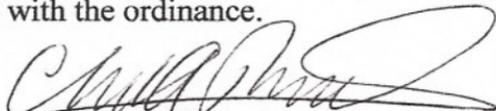

February 11, 2008

From: Charles A. Runnels
Chief of Police

Subject: Recommend change to current Enhanced 911 Ordinance

There has been very little compliance with the 911 ordinance. We have many homes that don't have numbers posted and in many cases, especially in the trailer parks, the numbers are wrong. This is creating a hazard to the public that can be fixed. The danger comes from the inability of emergency services to find a home quickly. Especially in medical emergencies second let alone minutes count. There have been instances where the police department has had to start running plates in an attempt to find a residence.

I recommend that the board amend Section # 9 to read, The Clinton Board of Selectman/ CEO Officer and the Clinton Police Department shall see that all homes are marked properly. Failing to comply with this ordinance within 30 days of being notified by The Board of Selectman/ CEO Officer or a Police Officer shall be punishable by a fine of \$50.00. This fine may be assessed every 30 days if property is not brought into compliance with the ordinance.
